

Horizontal Labeling Machine

This Horizontal Labeling Machine is suitable for the labeling of high-speed filling production line for the attached circular cylindrical objects, such as: vial, eye drops, essential oil, nail polish, etc. bottles, half the circumference of the labeling, using vertical to horizontal transfer (or horizontal discharge mode), horizontal vertical automatic transform again after labeling; Fast, reliable, stable, improve the efficiency of labeling code machine or printing machine to the labeling head is optional, can print date batch number and jet printing bar code on label.

Coding machine is optional to the conveyor belt. It can realize labeling before or after the labeling on the product production date, batch number, bar code and other information.

Technical Parameters:

Precision	±1.0mm (products, labels, error not included)
Labeling Speed	80-250pcs/min (related to the product size)
Applicable Product Diameter	Ø10mm~Ø 30mm
Apply Label Size	Length: 20mm~100mm, Width: 20mm~130mm
Apply Labels Inside Diameter	Ø76mm
Apply Labels Outside Diameter	Ø240mm
Power	220V/50Hz
Dimensions (L*W*H)	1900*650*1450mm
Weight	200KG
Apply Labels	Non-Drying Label, Dry Film, Electronic Supervision Code, Bar Code, etc.
Above technical parameters for the standard model, if other special requirements and functions can be designed.
