

## *Eyedrop/Vape Filling Machine*

This machine is filling and capping equipment for dropper bottle, advanced design, reasonable structure, can automatically complete filling, sorting and capping process. no bottle no filling, and other functions. Can be used stand-alone, and also can be used for filling line. This machine completely accords with GMP requirements.

The filling machine is suitable for the filling small volume bottle products, such as eyedrop, e cigarette, essential oil, serum toner lotion etc. we customize machine according to customers' request and products, it's widely used in cosmetics, skin care, health care industries.

### **Features:**

1. Each stand-alone machine can be operated independently and linked;
2. PLC control, touch bottle operation, simple and convenient operation;
3. The use of international famous brand electrical components, performance and stability;
4. The linear production line can be applied to the production of a variety of bottles by changing a small number of parts, and the adjustment is simple;
5. According to customer needs, customize the production of 2 heads, 4 heads, 6 heads, 8 heads and 12 heads.
6. Plastic bottles and glass bottles are customized according to customer requirements

**Parameters:**

- Filling Volume : 5-30ml
- Output : 30-50 bottles/min
- Filling Precision :  $\leq\pm 1\%$
- Power Supply : 380V/50Hz
- Capping Rate :  $\geq 99\%$
- Stoppering rate :  $\geq 99\%$
- Air Supply : 0.5-0.8Mpa
- Power : 2.2 kw
- Weight : 550 kg
- Dimension : 2500\*1500\*1980mm
