

CCE-P320 Weighing Packaging Machine

This equipment is our company in the packaging machine long-term practice on the basis of abandoning the original traditional semi-automatic mode, and independent research and development with more than 10 national patents weighing (robot) packaging machine, only need a key input, to achieve the packaging machine really intelligent and unmanned. It is an epoch-making product.

Application:

It is suitable for the packaging of food, the medicines, seasoning, health care products and other powders.

Technical Parameters:

Packing Accuracy	$\leq 1g$
Weighing Accuracy	$\leq 0.2g$
Weighing Range	1-500g
Working Speed	50-70bags/min
Bag pattern	Three side sealing
Bag size	W:50-150mm L:100-200mm
Air consumption	0.3-0.6m ³ /min
Voltage	220V 50Hz
Total power	1.5KW
Machine Weight	300kgs
Dimension	1200*900*1850mm
