

Double Side Self-adhesive Round Bottle Sticker Labeling Machine

Automatic adhesive labeling machine applicable to labeling round bottles of various sizes in food, medicine, daily chemical and other light industries.

Features:

- Machine-wide adoption of a mature technology PLC control system, so that the whole stable, high-speed
- Operating system using touch-screen control, simple, practical, efficient
- Upgraded disc label station design, can label conical flask
- Screw adjustment to suppress body movements accurately
- Synchronization chain mechanism to ensure smooth and precise calibration
- Labeling transparent label does not bubble, labeling self-adhesive label does not wrinkle
- Widely used, with one machine and adaptable.

Parameters:

Item	Data
Operating direction	Left or Right
Labeling Accuracy	±1.0 mm (subject to the roughness of the plane)
Capacity (bottle/min)	60-100
The application of bottle	Outer diameter 15-90mm
The application of label	Height 10-90mm Length 20-150mm
The inner diameter of label volume(mm)	76mm
The outer diameter of label volume(mm)	300mm (max)
The power of motor (w)	300W
Voltage	AC220V 50/60HZ Single phase
Weight	300Kg
Size appearance (mm)	1800*600*1300
