

## *GFDTB-2 Automatic Round Bottle Double Label Labeling*

Automatic double label labeling machine, suitable for medicine, food, daily chemical and other light industry round, square, flat bottle and other bottle types (can be customized). Label the front and rear sides of the bottle.

It is suitable for the side labeling of circular, square and flat bottles in other light industries such as medicine, food and daily chemical industry. One machine multi-purpose, at the same time suitable for the use of square bottles, flat bottles, round bottles, can be used alone, can also meet the line use.

### **Product introduction:**

1. Advanced human-machine interface system, simple and intuitive operation, complete functions, with a wealth of online help functions
2. The machine structure is simple, compact and easy to operate and maintain.
3. Adopt well-known brand motor drive, stable and reliable speed of bidding
4. One machine can complete automatic side labeling of three types (round bottle, flat bottle and square bottle) of various specifications

Double chain corrector ensures material alignment  
Special elastic jacking equipment ensures the stability of materials

### **Working principle:**

After the bottle dividing mechanism separates the products, the sensor detects the passing of the products, transmits the signal to the control system, and the appropriate position controls the motor to send out the label and attach it to the position of the product to be labeled.

**Specification:**

<b>Type</b>	<b>GFDTB-2</b>
Speed (BPH)	3000-4000 BPH (60mm label)
Dimensions (mm)	3000*1400mm*1800mm
Power (kw)	3kw
Label	Customize
