

High Speed Carton Erector YC-40H25

The carton storage adopts the horizontal type, and the empty carton can be refilled at any time, without stopping the machine, saving and opening the door safety protection function, the door is opened and the machine pauses and alarms, and the indicator light flashes.

Features:

- Using man-machine interface control, real-time display of action status and alarm function.
- Unpacking speed can be adjusted arbitrarily, (control by frequency converter)
- If there is no carton in the trough, the automatic warning reminds the supplementary carton function, and there is no tape alarm function.

Technical Parameters:

Model	YC-40H25
Suitable carton size	L280mm-500mm*W200mm-400mm*H90mm-400mm (according to your carton sizes)
Tape size	48mm/60mm/75mm
Air source	5-6kg/cm
Power	2000KW
Voltage	220V/380V 1PH 50/60HZz
Machine Size	L27800mm*W1250mm*H1840mm
Weight	1000KG
