

## *XHL-WLZ-120W Box Packaging Machine*

The equipment is a new type of machine developed by our company in combination with foreign advanced technology. It is a high-tech product which integrates with light, electricity, air and machine. Greatly improve the equipment performance and work efficiency. And achieve rapid box packing requirement, and maintains stability and reliability in the high speed operation.

This machine is suitable for automatic feeding and packing of bottle-like articles. Automatic online operation includes: bottle orienting, conveying, manual paper folding(1-4 times folding),delivering, manual paper inspection, box shaping and delivering, materials boxing, lot number printing, box tag sealing(thermal fusion glue is also applicable)missing material ejection, finished product outlet, etc. The whole automatic online packaging process can be fulfilled completely automatically. The machine can replace the workload of 10-15 people.

### **Application Scope**

It can be widely applied in the packaging of medicine bottle (round, flat),eye care solution bottle, aluminum-plastic tube, and various electronic, daily chemical products.

**Technical Parameters:**

Boxing speed:	30-120 boxes/minute
<b>Manual paper:</b> -Quality requirement: -Unfolded measurement: -Folding scope:	60-70g/m <sup>2</sup> , (80-250)mm*(90-170)mm, [1-4]fold
Power supply:	380V 50Hz
Outline dimension(mm):	4300*1100*1550
<b>Box:</b> -Quality requirement: -Dimension requirement:	250-350g/m <sup>2</sup> , (65-180)mm*(35-85)mm*(15-50)mm
<b>Compressed air:</b> -Working pressure: -CA consumption:	≥0.6MPa, 120-160L/Min
Main motor output:	0.75kw
Gross net weight:	1600kg
