

## Automatic Wrap Around Hot Melt Glue OPP Labeling Machine RHN-24

Hot melt glue labeling machine is widely used for different material of container. The label cost is comparatively lower, it can meet the requirements of those users who have diverse kinds of the containers. It is the most economical models in cost to make mass production and integrated operating. The equipment has massively used modularization design concept to make it easy and simple for users to change the bottles. Whether from the replacement of star wheel, guide plate or manual speed adjustment to automatic speed control, for example changing the label is only needed to change the program, the products concept of that the equipment is designed for users is embodied in everywhere.

### Technical parameters:

Model	RHN-24
Max Capacity:	8000-20000 Bottles/hour
Label length	350mm
Label height	15-205mm
Bottle diameter	Dia <90mm
Label material	Opp label
Electrical power	8kw
Overall dimensions	1850*1680*2200mm
Weight	2500kg
