

## **Full-automatic Combined Tower Packaging Machine ZF-XD450**

The combined Tower packaging machine ZF-XD450 uses an adjustable push plate to automatically arrange and automatically erect multiple rolls of tape to form a cylindrical packaging. The packaging speed can reach 12 barrels per minute. Suitable for multi-roll packaging of OPP sealing tape, stationery tape and PVC electrical tape.

### **Features:**

1. The newest patent design, making the arrangement of the tapes a as a tower through the feeding device.
2. It can be packaged in combination of 4, 5 and 6 rolls, and can be adjusted to different width by tools.
3. It can be connected to the rear of the full-automatic slitting machine and manual slitting machine to realize the unmanned operation and save the labor to improve the production efficiency.
4. The fastest packing speed can reach 13-15 barrels per minutes

### **Specification**

<b>Model:</b>	<b>ZF-XD450</b>
Machine size L*W*H(mm):	3692*3135*1605
Product size range H(mm):	45-72
Power supply:	1P/220V/50HZ/1.7KW
Packing speed:	12-15tower/min
Net weight:	610KG
