

Automatic Strapping Machine (RS-101)

Description: (RS-101) Automatic strapping machine takes polypropylene tapes as the binding material, mainly used for goods packaging and binding

Application: Widely used for various industries, like household appliance, textile, cosmetics, banks, finance, food, printing, publishing, pharmaceuticals, daily chemicals, post, etc. Mainly banding paper cartons, wooden cases, paper parcels, cloth, books and so on.

Features: Robust Construction. Efficient and Energy-saving. Automatically conduct strap collecting, thermal sealing, cutting and stopping. The new electric devices, heating fast, high speed and long use life. Add on a safety device, built for 24 hours continuous operation. Oil-free maintenance, firm strapping, high speed and long use life. Can be used individually, and equipped with designed conveyor to fulfill unmanned strapping system.

Technical data:

Strapping speed	2.5sec./cycle
Arch size	W800*H600mm (standard machine)
Material of arch	Aluminum
Table height	630-750mm(adjustable)
Width of pp strap	13.5mm
Thickness of pp strap	0.55-1.2mm
Voltage	220V -1PH -50/60HZ
Power	0.75KW
Machine size	L1400*W630*H1430mm
Packing size	L1500*730*H1530mm
Machine weight	200Kg
Gross weight	220Kg
CE certificate	Approved
