

CF-01 Automatic Carton Erector

Features

1. Automatic carton erecting machine is used to finish carton opening, shaping, and bottom folding and flexing as well as sticking the adhesive tape at the bottom automatically. It saves time and labor.
2. Carton erector can automatically correct the vertical angle of boxes.
3. Automatic carton erecting machine is convenient to operate and also helps to reduce packing cost.

Advantages

We promise to provide customers with one year warranty of automatic carton erecting machines. In the warranty period, our company is responsible for the maintenance and replacement of the damage of carton erectors caused by the quality problems, except man-made causes. The special service includes installation commissioning and training.

Payment, Packaging and Delivery

1. T/T or L/C is accepted terms of payment.
2. Automatic carton erecting machines are packed in standard carton boxes.
3. Type of shipping is by sea, by air or land transportation.

Parameters

Machine Dimension	1700 × 1925 × 1340 mm
Suitable Carton Range	Length Max. 500 mm Min. 200 mm
	Wide Max. 400 mm Min. 180 mm
	Height Max. 400 mm Min. 80 mm
Erecting Capability	720 pieces/hr (max)
Stacking Quantity	100 pieces/hr (tile paper box)
Carton Material	Currency tile paper
Adhesive Tape	OPP, Brown paper 38 mm or 50 mm
Carton Dimension Counterchange	Handle adjustment for about 1 minute
Power Supply	Single-phase AC 220V
Air Supply	0.5 Mpa (5Kg/cm ²)
Air Consumption	300 L/min
Weight	About 600 kg
