

BT-200 Cosmetics Automatic 3D Cellophane Overwrapping Machine

The machine is designed on the basis of absorbing and digesting foreign advanced equipment, using imported digital display transducer and electric components, stable and reliable in operation, a firm steel, smooth and beautiful. It can do automatic packing, feeding, folding, heat-sealing, counting and automatically sticky tear tape. Packing speed can be adjusted steplessly. Changing few parts can wrap different specification (dimension, height, width) of box products.

Three Prevention: anti-forging anti-damping anti-dusting
 Improve product additional value, improve product grade, improve decorative quality.

Main technical data:

Model	BT-200
Wrapping speed	30-60 cases/minute
Size wrapping range	$L+H+(5-10mm) \leq 200mm$
Wrapping material	OPP/BOPP
Machine dimension	2600x790x1550mm
Weight	600KG
Total power	4.5KW
Voltage	220V/380V(50Hz) single phase or three phases
