

Granule Vacuum Packing Machine BT-10S

The machine is suitable for the vacuum package of granule material such as tea, meddler, etc.

Feature:

1. Use double head weighed, making measurement more accurate
2. PID temperature control, make sealing temperature more accurate
3. The whole machine adopts PLC procedure control, with easy human-machine interface, easier to operate.
4. The sealing cylinder and bag opening cylinder is with high quality, with more high performance.
5. The machine can automatically weigh, fetch bag, open bag, fill, vacuum and seal.

Main technical data:

- Filling Range: 1—50g
- Error Tolerance: $\pm 0.2\%$
- Speed: 12-25 bag/minute
- Machine weight: 180kg
- Dimension: 725*600*1105mm
- Total Power: 220v/50Hz/0.5kw
- Air consumption: 15L/Min
