

## ZS-2000 Pillow-Type Packing Machine

Be applicable for viscosity food, toys, hardware, daily chemicals and wet tissue

### Technical Characteristics:

1. Adoption of packaging form of membrane paving on the lower part and middle sealing on the upper part
2. Adoption of double variable frequency stepless speed regulating
3. Intelligent control system of human-computer interface; simple parameter setting
4. Automatic tracing and color code positioning by electric eye: accurate cutting location
5. Positioning halt; prevention of knife adhesion and membrane burning

### Technical Specification:

Model		ZS-2000	Motor power (kw)	0.6kw
Bag Size	Lengthy (mm)	60-160	Heating power (kw)	2.1kw
	Width (mm)	35-100	Film width (mm)	90-220
	Height (mm)	5-35	Machine weight (kg)	450kg
capacity (bags/min)		30-200	Dimension (L×W×H)	4000*840*1350
Total power (kw)		2.7
