Candy Pillow Type Packing Machine DXD-1200

Characteristics:

1. Automatic shows error, safety shield, safety switch.
2. This system can store products` parameters more than 100pcs. The touch screen shows everything in Chinese (English), operation indication, error signal and quantity. Easy operation.
3. Automatic film splicer can splice film without stooping machine.
4. Fast speed, less empty bags, steady packing capacity. Empty bags` removing device.
5. Easy to change the spare parts, whole structure designed for long time using.
6. Low noise. Use synchronization belt.

Parameters:

Candy Pillow Type Packing Machine: single candy or double candys per bag
Production capacity: max 1200 pcs/min (see different size)
Packing spec: length 12-40mm width 12-30mm height5-18mm
Packing shape: Square, Ellipse, Oblate, Globular, Plum Blossom-shaped.
Packing material: PET+OPP, BOPP, CPP, PET+AL, and other one layer or double layer heated complex film.
Length of finished bag: 50-80mm
Power supply: 220v/60Hz (or you can tell me what you need) 3 phase
Gross power: 4kw
Overall dimensions: 2800*1350*1720 (L * W * H)
Gross weight: 1400kg
Thickness of the film: 0.045-0.05mm
Crust of the machine: Stainless steel
