

High Viscosity Liquid Filling Machine MTFM-1600

Application:

High viscosity liquid

Widely used in oil, honey, jams, machine oil and daily chemical products

Spec and Features:

- 16 filling nozzles (Can be adjusted)
- Servo motor control volume ensure measurement more accurate
- High filling speed and filling precision, no bubble, stable
- PLC, Touch screen human-computer interface with simple operation
- Round and flat bottles is suitable
- High automatization, adjust convenient
- Applicable bottle diameter is 40-100mm

Technical Parameters:

Production Capacity	5000b/h
Filling Volume	50-1000ml
Filling Method	piston
Filling Volume Precision Error	±1%
Bottle Height	70-300mm
Air Pressure	0.6-0.8Mpa
Power	AC380V, 50/60Hz 2.5kw
Net Weight	1200KG
Dimension	2400*1300*2150mm
