

KXZ-250B Automatic Large Size Box Packaging Machine

Technical specifications

- Speed: 30-80 box/min
- Box Thickness range: 250-450g/m² (according to its size to confirm)
- Box Size Range: Length:100-350mm
Width: 100-250mm
Height: 20-100mm

Compressed air

- Working pressure: ≥ 0.6 mpa
- Air consumption: 20m³/h
- Power supply: 380V 50Hz
- Motor Power: 1.5KW
- Machine dimension (L×W×H): 3500×1350×1900mm
- Machine weight: Appro 1500KGS

Standard features

- Touch Screen HMI controls
- PLC program
- Japan Omron electric parts (inverter, PLC, touch screen)
- Germany sick photocell
- Spain meler hot melt glue
- Vacuum assisted pre-break
- Various size are available in machine within machine size range

(connect our machine with your present machine to be whole automatic line)

- Without product, carton will be not sucked down
- Auto display trouble, alarm and count finished product
- Overload protection
- Double suck system, more steady

Optional features

- Auto conveyor
- Hot melt glue (can be american nordson, dynatec, spain meler, switzerland robatech)
- Other brand like SIMENS (inverter, PLC, touch screen)
