

450L L Type Automatic Shrinking Machine

FF-450L L type automatic shrinking machine is automatic cutting sealing machine and shrinking machine BS-4525 BS-4535 are suitable for various small products packing film cutting sealing and shrinking. One worker can control the machine. The L Type Automatic Shrinking Machine cuts and seals the packing film on the product automatically, then the products will go into the shrinking machine on the tape. After shrinking and cooling, the packages will come out. It is easy operation. We supply the technology communication according to your special requirements and OEM service production. We will pack the machines in export wooden cases and delivery to loading port in China on time.

Technology data sheet:

Model	450L L Type Automatic Shrinking Machine
Power Consumption	1.35KW
Packing Max Height	14cm
Max Cutting Size	(L)56*(W)45cm
Packing Speed	15-25 pcs/min
Voltage	220V/ 50Hz
Machine Size	(W)90cm*(H)145cm*(L)175cm
Air Presser	4kg/cm3
