

Automatic Plastic Food Container Tray Sealing Machine LD802B

Automatic plastic food container tray sealing machine is a desktop pneumatic type sealing machine, suit for sealing PP/PET/PS/PVC...trays, rectangular, square or round kinds tray.

Desktop type automatic tray sealing machine belong to automatic plastic tray box packing machine, the whole machine is made of stainless steel 201. Simple and reasonable structure, sealing of high efficiency and easy operation; Suitable for various sizes of plastic boxes, plastic trays and special-shaped plastic containers heat sealing, it's widely used in pharmaceutical, cosmetic and food industries.

Advantage:

1. The whole machine adopts 201 stainless steel and aluminum alloy material, according to requirements of the GMP for food;
2. Adopts pure electric drive and air supply, suitable for small businesses, restaurant, hotel, shop supermarket and canteen management place;
3. LCD display control sealing time, photoelectric sensor film location tracking, after sealing design accuracy;
4. Automatic sealing process, saving manpower, improves the sealing quality.
5. Different material, different thickness of a thermal sealing material all can use;
6. Optional code printer, timing roll of film and mould replaceable, easy to remove and install new mould;
7. Can be used with a variety of equipment collocation, such as liquid filling machine, paste filling machine, filling packing line etc.;
8. Special size and shape of tray can be customizing mould.

Technical parameters

Model	LD802B
Voltage(V)	AC110-220V/50-60Hz
Power(W)	500-1000W
tray size (mm)	50-250mm
Packing speed(pcs/hour)	800-1000
Sealing materials	PP,PE,PET,PS and etc.
Working temperture	0-300 °C
Air pressure range	0.5-0.8Mpa
Gross Weight(kg)	120kg
Package Size(mm)	980*940*950mm
