

Coffee Drip Packing Machine BSP-L188

The equipment is controlled by PLC, driven by servo motor and sealed by ultrasonic. Suitable for tea bagging, coffee, Chinese herbal medicine, scented tea, etc.

Function:

The equipment is controlled by PLC, driven by servo motor and sealed by ultrasonic.

Suitable for tea bagging, coffee, Chinese herbal medicine, scented tea, etc.

One machine can complete the output from the original to the finished product. It contains the functions of inside and outside bags, packaging materials in the inside bags, and packaging materials in the outside bags again, with no manual involvement in the middle, ensuring the health and safety of the products;

The mechanical structure is simple, the operation mode is straightforward, the operator can operate through the screen, one person can turn the machine on. Stable equipment packaging, accurate weighing, low maintenance cost, reduce the operator's trouble and difficulty.

Technical parameters:

Model	BSP-L188
Sealingtype	3-side sealing
Measuringrange	1-10g
Innerbagsize	L70mm; W90mm
Outerbagsize	L120mm ; W100mm
Voltage	220V/50HZ, single phase
Power	3.7kw
Weight	660KG
Dimension	L1350*W850*H2200mm
