

Automatic Sleeve Labeling Machine AP-200/400/600

Change the strap in 3minutes Maintain easily and simply and, don't affect to manufacture.

It is suitable for the container of $\phi 30-120\text{mm}$. The cutting seat need not change and debug, and has priority over other brands. The new reamer cuts smoothly, and constringency is more beautiful.

Every trimmer part has exact trimming scale sector (the precision is 0.02mm), and which is adjusted very fast. Be sure to change specification in 10 minutes and not need assistant tools.

Features:

1. Synchronous transmission system with satrap
2. Unique design of cutting seat
3. Main machine can go up and down by electro-motion

Technical Parameter:

specification	100mm PET
AP-200	100~200 pcs/min(MAX)
AP-400	250-400 pcs/min(MAX)
AP-600	400-600 pcs/min(MAX)
power supply	AC220V 50/60Hz
power consumption	3KW
outline size(mm)	2900(L)*1200(W)*2000(H)
container(mm)	$\phi 30-120$
label size(mm)	40-240 (L) 0.035-0.082 (T)
label material	PVC PET OPS
