

Pouch Sauce Bag Filling Machine

Features

1. This machine uses frequency conversion speed regulation device, which can adjust the speed at will within the specified range.
2. Automatic detection function, if the bag is not opened or opened incompletely, no feeding, no heat sealing, the bag can be reused, no waste of materials, saving production costs for users.
3. The safety device will give an alarm when the working air pressure is abnormal or the heating pipe fails.
4. Equipped with plexiglass safety door to protect operators.
5. Oil-free vacuum pump is adopted to avoid pollution of the production environment.

Suitable for milk powder, coffee, flour, spices, additive, pesticide, chemical powder weighing filling packing for premade bag, zipper bag.

Adopting PLC control, it has the advantages of stable operation and high weighing accuracy.

The width of the bag is easy to adjust and can be controlled with just one button.

Comply with GMP requirements, environmental protection and pollution-free.

All contact parts are made of 304/316 stainless steel.

Powerrig Machine is one of the topes sauce filling machine, sauce filling equipment, sauce bottling machine factory. During these years of exporting, Powerrig Machine now has rich experience in the worldwide markets.

Parameter

Bag material	Compound mold		
Bag type	Zipper free standing		
Bag size	w:100-210mm L : 100-350mm	W:150-260mm L:150-350mm	W : 200-300mm L:200-450mm
Speed	10-50bag/min	10-40bag/min	10-40bag/min
Weight	1200KG	1400KG	1500KG
Voltage	380V 3 Phase 50HZ/60HZ		
power	3KW	4KW	4KW
Compressed air	0.6m ³ /min
