

Automatic Tea Bag Packing Machine with Outer Bag TJ-180C

1. The Automatic Tea Bag Packing Machine With Outer Bag replaces the manual packaging, and has completed the packaging initiative for large enterprises and small and medium-sized enterprises, which has improved the production power of various industries and greatly reduced the cost.
2. The packaging machine of Automatic Tea Bag Packing Machine With Outer Bag has a wide scale, not only can package tea, but also can pack various solid materials. It is only necessary to select different metering filling equipment according to different materials.
3. The package can be used in a wide range of sizes, and can be used for prefabricated bags and paper bags made of multi-layer composite film.
4. The Automatic Tea Bag Packing Machine With Outer Bag quickly replaces the package specification, and the width of the active replacement bag device can be easily adjusted by the conditioning handle.

Technical characteristics of Automatic Tea Bag Packing Machine With Outer Bag

1. Automatic Tea Bag Packing Machine With Outer Bag is equipped with standard testing equipment, which can detect that the filling equipment is not filled without the package or the bag is not opened, the heat sealing equipment is not sealed, and then the packaging materials and raw materials are not spoiled.
2. The loss of packaging material is low, the pre-fabricated packaging bag is used by the Automatic Tea Bag Packing Machine with Outer Bag, the packaging bag pattern is perfect, the sealing quality is good, and then the product level is improved.
3. Frequency control, the Automatic Tea Bag Packing Machine With Outer Bag uses variable frequency speed control equipment, which can be adjusted freely within a certain scale according to actual needs.

4. Convenient operation, using advanced PLC plus POD (touch screen) electrical control system, human-machine interface friendly, easy to operate.

5. The Automatic Tea Bag Packing Machine with Outer Bag actively completes bag making, wire feeding, labeling, dosing, filling, sealing, slitting and counting.

Technical Parameter:

Model	TJ-180C
Sealing type	3/4 sides seal
Packing weight	0.5-15ml depends on product)
Inner bag size	Width 50-170mm , length 50-120mm
Outer bag size	Width50-200mm, length 80-160mm
Tag size	L : 20-40mm W:40-55mm
Production capacity	30-80 bags/min
Thread length	155mm
Power supply	AC220V, 50/60Hz
/Power	3.7 KW
Overall dimension	900*610*1800mm (L*W*H)
Net weight	500kg
