

LM-400 high speed self-adhesive labeling machine

Grepack takes clients as the god trying best to satisfy all kinds of their requirements to manufacture the planar shelf adhesive labeling machine, automatic labeling machine, high speed self-adhesive labeling

Description:

This machine is widely used for the labeling of round containers for food, medicine, fine chemical and etc, such as oral liquid bottles, ampoule bottles, syringes, needle rube sleeves, hoses, cultural supplies and so on. This machine adopts servo motor for control. The human-machine touch screen is convenient and easy to operate; the rich failure display function can realize high-speed labeling.

Technical Parameter:

MODEL	LM-400
DRIVE	Servo motor driven
DIRECTION	Right/left
LABELING SPEED	200-400pcs/minute
LABEL SIZE	width : 10-90mm length : 10-100mm
PRECISION	±0.5mm (Subject to roundness and verticality of the bottle)
LABEL ROLL	Max:Φ350mm
LABEL CORE	Stander:Φ75mm
MACHING SIZE	2500X1300X1650mm
WEIGHT	350kg
POWER	AC 110V/220V 50/60HZ 1200W
CODING DEVICE	DT-280
