

## *DZ-500/2G Floor Type Vacuum Packaging Machine*

DZ-500/2G floor type vacuum packaging machine is mainly used for vacuum packing meat, sauce and pickled products, aquatic products, seafood, vegetables, agricultural and sideline products, preserved fruits, grain, bean products, medicinal materials, and electrical hardware.

### **Features:**

1. The control system: computer control panel, there are a variety of control methods for customers to choose
2. Vacuum pump: strict quality inspection system to ensure the safe and stable operation of the heart of the vacuum machine
3. Vacuum cover hinge: special vacuum cover labor-saving hinge device, greatly reducing the labor intensity of workers in daily work, more easily deal with
4. Suspension System: The unique shock absorber design of the vacuum pump motor keeps the machine at low noise during operation.
5. Main material: vacuum machine main structural materials are 304 stainless steel, to ensure the appearance of the appearance and the use of corrosion in severe corrosion environment
6. V-shaped sealing strip: The V-shaped vacuum chamber sealing strip made of high-density materials ensures the sealing of the machine in daily work. The pressure resistance and wear resistance of the material extend the service life of the sealing strip and reduces the number of replacements. , reduce production costs
7. High-quality organic glass vacuum cover, solid and transparent, can make a vacuum inside the packaging process and status of the package at a glance.

**Main Parameter:**

<b>Model</b>	<b>DZ-500/2G</b>
Machine size (mm)	680×590×960
Vacuum chamber volume (mm)	540×520×210(150)
Heat seal effective size (mm)	500×8-2
Vacuum pump (m <sup>3</sup> /h)	20
Motor power (kw)	0.9
Voltage (V)	110/220/240
Frequency (HZ)	50/60
Working cycle (times/min)	2
Gross weight (kg)	130
Net weight (kg)	108
Outer box size (mm)	850×840×1040
