

JCV-M Multi Head Weigher Packing Machine

QUICK DESCRIPTION

Vertical packaging machines combined with multi-head weighers are one of the best packaging solutions for granules, powders and bulk products. Its weight accuracy can reach up to 0.1 grams, and the matching speed is also one of the key points.

TECHNICAL PARAMETER

Model	JCV-M10	JCV-M14
Combination weighing head	10 heads	14 heads
Weighing range	3~200g	3~200g
Weighing accuracy	±0.1~1.0g	±0.1~1g
Maximum weighing speed	65WPM	90WPM
Weighing bucket volume	500ml	500ml
Applicable film width	140~360mm	140~360mm
bag size(L*W)	(60~250)*(60~170)mm	(60~250)*(60~170)mm
packing speed	65bags/min	90bags/min
Pull film drive	servo motor	servo motor
Horizontal seal drive	cylinder	servo motor
Total working power	3.8KW/220V/50(60)HZ	4.6KW/220V/50(60)HZ
Total air consumption	0.4m ³ /min	0.6m ³ /min
Overall size(L*W*H)	1306*1059*1902mm	1645*1140*2509mm
Total weight of the machine	550Kg	750Kg
