

## *CML50I Packaging Machine*

CML50I machine can pack explosive and other explosive materials into big bag. CML50I machine can complete automatic packing according to the set weighing specification through the function of automatic weighing and automatic filling.

### **Specification:**

Content	Remarks	
Packing specification	25kg ~ 50kg	Generally 5 kg one specification
Packing speed	3~4 bags /min	
Packaging accuracy	±5‰	
Machine material	Main material: stainless steel 304	
Packaging bag	Woven bag	
Bag width range	450~600mm	Generally 10 mm one specification
Bag length range	700~1100mm	Generally 50 mm one specification
Staff member	One person	
Adaptable material	Explosives and similar materials	
Temperature	-5°C ~ 45°C	
Relative humidity	≤75 % ( No condensation)	
Gas source pressure	≥0.45Mpa	
Power	2.25KW	
Weight	300Kg	
Dimensions	1528×580×1525	L×B×H
