

XS-F60B Automatic powder packing machine

Step motor controls filling-screw to reach high precision. The whole measure system is controlled by step motor too. This series machines are used to packing powder. Products such as pesticide, fertilizer, medicine, facial mask, dried milk, spice and so on. Screw filling is suitable for bad fluidity material and owns feature of high speed, accuracy and practical use.

Technical Parameters:

Model	XS-F60B
Production capacity (bags / min)	40-60
Volume margin (ml)	1.0-50
Bag size (mm)	L60-180W50-120
Power Voltage (V)	3-Phase and 4-wire system
Power Consumption (W)	1600 (heating180×4)
Dimension (mm)	W650×D750×H1588
Net Weight (kg)	200
