

## ZS-YTPP2 Double Heads Liquid Filling Machine

This peristaltic pump liquid filling machine is with two filling nozzles, each nozzle can be controlled separately. The filling speed and time can be adjusted according to operation need. The liquid will not pass through the pump during working, which ensures the filling quality. This machine is widely used in drinks, cosmetics and daily chemical industries.

### Technical Parameters:

- Model:ZS-YTPP2
- Voltage:110V/220V
- Powder:100W
- Filling Range:3-2500ml/min for each fling head
- Max Suck Distance:2 meter
- Interior diameter of fling nozzle:4/6mm

- Anti-dripping Function: Available
- Memory Function out of power: Available
- Package Size: About 615\*435\*320mm
- Net Weight/Gross Weight: About 20kg/26kg
