

DXD20 Tea Bag Packing Machine

Model DXD20 Tea bag packing machine is a kind of new multi-function machine with totally automatic filling for both inner and outer bags at one time, it is suitable for automatically packaging of steeping products, such as fragmental tear medical tee coffee etc. Outer envelope is made from heat able lamination packing material that the function for fresh protection, damp proof, and also avoiding volatile smelling, thus make the material an ideal choice for packaging of Chinese medical pills, healthcare tea and packed tea as well.

Main packing materials include PET / PE, PE / Vmpet / PE, PET / CCP / Tea leaf filter paper.

Features

- Stainless steel cover that meets GMP standard.
- Computer-controlled outer envelop is a patent product first created in the country, adopt advanced
- CPU control system and also with wide user-friendly LCD screen.

Technical Parameter

- Max.output: 40 bags / minute
- Filling range: 2 - 12 ml
- Inner bag dimensions: L = 50 - 100 mm, W = 30 - 80 mm
- Envelope dimensions: L = 60 - 150 mm, W = 70 - 105 mm
- Power supply: AC 380V / 220V, 2.05 kW
- Weight: 550 kg
- Overall dimensions: 1200 × 850 × 1900 mm
