

## *HL-T-400 Full Auto Round Bottle Labeling Machine*

HL-T-400 Applicable to variety of regular round bottle or a small taper round bottle, paste one or two labels, which can be widely used in attaching to the full circle and semi circle labeling. High label contact ratio, A deviation correction mechanism is used for label tape looping to avoid any deviation.

### **Features:**

- Widely application, adapted to 10-100mm dimension round bottle labeling.
- High accuracy, and the error of label joining part is no more than 0.5mm
- Adopted extrusion device to feeding, just need to put work-pieces, the machine can automatically finish labeling.
- Use chuck type to adjust, different work-piece can cut over easily.
- Use the synchronous belt, the stability of the mechanism is greatly improved.
- The desktop design, make the structure simple, figure small and function strong.
- The anode corundum alloy shelf and the deluxe computer white electricity box make the figure beautiful and generous.
- Advanced magic eyes, make the sensitivity high for the object and label.

### **Product parameter**

<b>Model</b>	<b>HL-T-400</b>
Labeling accuracy	1mm(Not including bottle/label error)
Labeling speed	30-150 bottles/min(Depend on bottle/label size)
Bottle size range	Round bottle, Diameter: $\phi$ 25mm- $\phi$ 100mm, Height: 25mm-230mm
Label size range	Length: 20-320mm, Width(Label base): 15mm-175mm
Power	0.5KW
Voltage	AC, 220V, 50Hz

Dimension	1930*1120*1340mm(L*W*H)
Weight	185KG
Warranty	1 year
Optional	Color wheel coding device; Transparent label sensor; Bar code online printing
