

ZP4100 Rotary Tablet Press

ZP4100 Rotary Tablet Press is a serial product widely used in pharmaceutical, food, chemical and electronic industry to produce all kinds of round tablets, irregular and double side engraved tablets.

Performance and Characteristics:

- High speed, double side outlet,
- Offering max main compression capability of 100KN, and a pre-compression capability of 30KN
- Contained in unique structural design, novel and beautiful appearance design, elegant simplicity
- Comply with GMP, compact construction, easy to operate, clean and maintain.
- High quality HMI, displays tablet control and filling depth control.
- Auto central lubrication system, ensures a precise and reliable oil supply control.
- Easy to assemble and disassemble force feeder.

Technical Parameters

Type of tooling	TSM 1 (EU 1') D	TSM 19 (EU 19) B	TSM 19 (EU 19) BB	EU 19 BBS
Max. Pre-pressure (kn)	30			
Max. filling depth (mm)	18			
Max. dia of tablet (mm)	11	14	18	25
Rotary speed of turret (rpm)	48			
Max capacity (tab/h)	351360	320328	270720	224640
Powder of the main motor (kw)	7.5			
Height of the main machine	2160mm			
Area to occupy (mm)	1300mm * 1100mm			
Weight (kg)	3000
