

TH-250 Flow Packaging Machine

Suitable for the solid object with regular form. Such as biscuit, bread, sweet, commodities and industrial parts and so on. The bulk cargos is put in a box and form a regular object, then to be packed.

FEATURES

1. Touching controller with person-machine interface, parameter enacted quickly, high speed and high efficiency
2. Adopting the tracing technology through photo electricity, with digital input and sealing and cutting position nicely.
3. Diagnosing the troublesome and indicating to give an alarm.
4. Constant-temperature adjusting, brainpower controlling and being suitable for all kinds of packaging materials.
5. Controlled by Double frequency conversion, the bag length can be cut with the enacting To finish by one step, saving time and saving film.

PARAMETER DATA

Model	THB-250 THB-320 THB-400
Film Width	Max 250mm 110--320mm Max 400mm
Bag Length	65-190mm, 120-280mm 80-230mm, 100-300mm 130-320mm
Products Height	5-40mm 5-40mm 5-50mm
Roller film diameter	Max 320mm Max 320mm Max 320mm
Packing Speed	40-230 bag per minutes 40-280 bag per minutes 40-230 bag per minutes
Power	220v, 50hz, 2.5kw 220v, 50hz, 2.8kw 220v, 50hz, 3kw
Machine size	3800x670x1450mm 4000x900x1500mm 4100x950x1520mm
Weight	800kg 800kg 900kg
Remark	date coder option
