

## *CX-SMT Automatic Adhesive Double Side Labeling Machine*

Is suitable for the flat bottle, round bottle, square bottles of the single side and double sides labeling, such as oval shampoo bottle, Lubricating oil flat bottles, Hand sanitizer round bottles and so on. Double side labeling which improve the production efficiency, Widely used in chemical, cosmetic, petrochemical, pharmaceutical and other industries.

### **Function Characteristics**

- Function is powerful, one machine which can realize four products are single-sided and double-sided labeling (round and fat bottles square bottles special-shaped bottle)
- Adopted the double side rigid plastic synchronous guide chain, automatic calibration for bottles, lower requirements for feeding bottle manually and docking assembly line into the bottles, Greatly reduce workers job or pipeline docking difficulty, can be stand-alone production, also can meet production line
- Pressure type coping mechanism, to ensure product delivery smoothly, and effectively eliminate bottle of high error in itself
- Should function auto completion With separating bottle automatically, Guide before the bottle automatically separated spacing, ensure the follow-up bottle, conveying and stick mark stability
- Intelligent control automatic photoelectric tracking have any label, no standard automatic correction and label automatic detection function, avoid the waste of label and leakage; Main material is made of stainless steel equipment and advanced aluminum alloy, in line with the GMP standard production, the overall structure is firm, the be auty is generous.

## Technical Parameters

Voltage	AC110/220V, 50/60HZ
Labeling Speed	20-150 bottles/min
Labeling Accuracy	±1mm
Printer toUseAir	5 kg/cm2
Object Size	30-280mm(H), 20-200mm(W)
Label Size	25-300mm(L), 20-180mm(W)
Roll Size	Inner:φ76mm, Outer:φ300mm
Dimension	2800mm(L)×1450mm(W)×1360mm(H)
