

MD-300Y Liquid Packaging Machine

It is used for the measurement and packaging of liquids and other items in the food, pharmaceutical, chemical, and cosmetic industries. This liquid packaging machine can automatically complete bag making, measurement, blanking, sealing, slitting, and counting, and can be configured to print batch numbers according to customer requirements. Function. Touch screen operation, PLC control, stable performance, convenient adjustment, and accurate detection. Adopting an intelligent temperature controller and PID adjustment, the seal is beautiful and smooth.

Features

1. Max.Bpm up to 60.
2. Automatic alarm and shut down for production and safety errors.
3. Closed working environment, safe and reliable.
4. PLC, touch screen control, easy to operate.
5. Pneumatic sealing mechanism, easy to adjust and maintain.

Parameters

Model	MD-300Y		
Measurement Method	Pump Metering		
Production Efficiency	50 bags/min		
Bag Size	L: 30mm-190mm W: 20mm-140mm (customizable)		
Packing Accuracy	±0.2g (depends on materials)		
Power Supply	1.5kW/220V	Air Consumption/Pressure	6-8bar/0.2m ³ /min
Machine Dimensions (L.W.H)		Machine Weight	390kg
