

LTPK LT-300 Automatic Flat Surface Labeling Machine

This automatic labeling machine is an industrial equipment that applies self-adhesive labels to products on flat surfaces. These machines are ideal for labeling a variety of products such as boxes, bags, cartons, and other flat surfaces.

The machine works by feeding the products through a conveyor belt system, where they are positioned for labeling. The self-adhesive labels are then accurately applied to the products with high precision and speed.

Automatic labeling machines are designed to be efficient and reliable, with user-friendly controls and high accuracy. They offer a flexible solution for labeling needs, with the ability to handle a wide range of label sizes and shapes.

These machines are widely used in industries such as food and beverage, pharmaceuticals, cosmetics, and more. They are an essential tool for companies that need to label their products accurately and efficiently, with consistent results every time.

Technical Parameters

Model	LT-300
Voltage	110V/220V, 1.5KW, 50/60Hz
Speed	60-150 pcs/min
Material size	Width≤180mm
Label size	Width≤180mm, Length≤300mm
Label roll inner diameter	76mm
Label roll outer diameter	350mm
Machine size	About 2800*1100*1700mm (L*W*H)
Net weight	About 180kg
Package size	About 2160*970*1840mm (L*W*H)
Gross weight	About 277kg
