

CJL-2000A Automatic Wrap Around Labeling Machine (Sticker Type)

The labeling equipment CJL-2000 series is suitable for self-adhesive labels for round bottle wrap around procedure.

The entire control system is computerized to adjust major devices automatically by detecting object container and label dimensions.

This benefits machine operation convenience and user friendly.

Specification

Model	CJL-2000A	CJL-2000B
Machine Dimensions (LxWxH)	2005x985x1055 (mm)	
Labeling speed	10-250 Label/min	
Label Length	10-320mm	
Label Height	20-135mm	20-200mm
Product Height	20-250mm	
Product Thickness (Diameter)	10-110mm	
Label Reel (ID)/(OD)	76mm/360mm	
Power Consumption	220V Single phase, 50/60HZ	
Machine Weight	200KGS
