

## GP-CF-8 / 16 Capsule Counting Machines

The counter and filler machine adopts advanced vibration and multi-channel feeder, computer control, dynamic scan counting, transfer the bottle automatically, system test automatically. with error alarm, stop automatically and other advanced technology. This machine designed with GMP requirement. Compose the light, electric machinery to one set, which is suitable for tablet, capsule counting and filling in pharmaceutical or food business. The machine can be widely used for all kinds of different tablets, capsules, pills in different shape and size. The capacity and accuracy of counting and filling reach the advanced level.
