

HC 500 Horizontal Carton Packaging Machine

HC 500 is a horizontal carton packaging machine in a continuous motion. This model is suitable for high volume production, in which is capable of producing up to 500 cartons per minute. HC 500 achieves optimal production outputs through innovative product transfer via chain and pulleys combined with safety clutches on all main servo drives movements.

Features

- Continuous motion
- 17 continuous motion pushers for product inserting with overload detection device
- 4 heads rotary carton feeder for carton forming
- Industrial standard PC control system
- GMP compliant design
- Available for 21 CFR Part 11

Specification

Model	HC 500
output	500 cpm
mode of operation	continuous motion
carton size	A: 30 - 85 mm
	B: 15 - 70 mm
	C: 70 - 150 mm
