

## UN-800QZS Series Wrapping Equipment

Our UN-800QZS series wrapping equipment is designed for stretch packaging for products such as toffee, instant noodles, bubble gum, nougat, haw jelly, and more.

The UN-800QZS series wrapping equipment is a kind of multi-functional horizontal flow wrapper with the function of food cutting and packaging.

Equipped with a rotating cutting head, the UN-800QZS series wrapping equipment has the advantages of fast cutting speed and high packaging efficiency.

In addition, multiple optional configuration modules can be selected by customers according to the special requirements to improve the productivity and service life of the machine.

### Main Specification

Model		UN-800QZS type
Max. Production Capacity		500 / min
Packing Shape		Rectangle, Square, Cylindrical
Packing Range	Length	20-40/40-80/80-160mm
	Width	12-20 (Φ8-13) mm
	Height	3-18mm
Gross Power		4.6Kw
Power Supply		220V 50Hz
Overall Dimension (L×W×H)		2250×900×1550mm
Gross Weight		1250kg
