

SH-AFC28A Full Automatic Peristaltic Pump Monoblock Rotary Irregular Bottles Car Perfume Cosmetic Oil Liquid Filling Capping Machine

Main Feature

- ▶ This monoblock machine is controlled by cam system, it can finish bottle & cap feeding, filling, inner plug placing and capping in one machine.
- ▶ This machine is suitable for packaging small containers like car perfume, massage oil, etc. Can be customized for irregular bottles and caps.
- ▶ Filling is controlled by peristaltic pump, filling material will only pass through the hose, ensuring cleanliness and avoiding cross contamination.

Parameter

- Machine voltage: 110/220V 50-60HZ 2.5KW
- Filling pump: Peristaltic Pump
- Filling range: 4-20ml (Adjustable)
- Filling error: ± 0.1 ml (based on filling range and material)
- Working capacity: 30-40BPM
- Suitable bottle size: $\phi 25$ mm*59mm & $\phi 35$ mm*30mm (Customizable)
- Suitable stopper size: $\phi 35$ mm*30mm (Customizable)
- Suitable cap size: $\phi 35$ mmX32mm (Customizable)
- Air pressure: 0.5-0.7MPa
- Machine size: About 2000×1600×1750mm / About 78.4*62.99*68.9 inch
- Machine weight: About 700kg
