

JS-250H Automatic POF Film Box Bottle Soap Bar Heat Tunnel Shrink Packing Wrapping Machine

Suitable for shrink-wrapped products.

Daily necessities: shower gel, shampoo, detergent, hand soap, scouring pad, dehumidifier, cup products, cosmetics, tray perfume, etc.

Food: fruits, vegetables, biscuits, cakes, bowl noodles, pizza, cup milk tea, frozen food, etc.

Hardware: fasteners, wires, bearings, door handles, hinges, faucets, etc.

Feature

1. Single or arbitrary packaging.
2. The anti-cut safety clutch device does not damage the packaging.
3. Increase the waste recycling device to make the packaging more beautiful, saving materials about 3%-10% compared with the traditional packaging machine.
4. The color touch screen control system is extremely easy to operate and beautiful in appearance. PLC control makes the system more stable, reliable, and has a low failure rate. The bag length, speed and temperature can be adjusted individually. The operation is convenient and accurate.
5. It can be equipped with a coding machine or inkjet printer, without the use of labor.
6. With motor brake control, the equipment responds responsively.
7. The heat shrinking furnace has high-efficiency dual temperature zones, high-efficiency hot air circulation, and automatic temperature control to ensure the shrinkage quality.

Specification

Model	120	150	180	210
Max. Film Size	≤590mm			
Bag Length	60-320mm	100-450mm	150-530mm	180-600mm
Product Width	10-200mm			
Product Height	5-35mm	35-70mm	75-110mm	80-135mm
Packing Speed	30-150 bags/min	30-150 bags/min	30-130 bags/min	30-100 bags/min
Film Type	PVC, POF			
Power	3.6KW+16.5KW			
Power Supply	Host Machine	220V, 50Hz	Shrink Machine	380V, 50Hz
Envelope Size	5000(L)*1105(W)*1450(H)mm			
Shrink Machine Size	2400(L)*600(W)*1700(H)mm			
Machine Weight	Host Machine	1000kg	Shrink Machine	600kg
