

## ***RJWJ-15 Softgel Encapsulation Machine***

RJWJ-15 Softgel Encapsulation Machine is the newest style we designed on the basis of the old style. It is designed for the market vacancy. The machine has a compact structure, beautiful outlook, stable performance, moderate capacity and it is more automated and humanized. The capacity is 30000 capsules/h, so it is an ideal choice for the small production manufacture.

### **RJWJ-15 mainly advantage**

1. The Gelatin Box adopts liquid level sensor control the quality of the liquid gelatin automatically.
2. The whole machine adopts newest temperature controlling system, so the temperature can be controlled precisely.
3. The mould is of high precision, the diameter is 103mm, the capacity is stable. The machine can be used to the research and so the production.
4. The volume is precise.

**Technical Parameters:**

dimension	1680 * 600 * 1550 (mm)
roll mode size	103 * 100 (mm)
roll mode pressure	0.1 - 0.5 (mpa)
capsule production	30000pill/hour (8#olive)
roll mode speed	0 - 5 (round/min)
feeding precision	≥±1%
motor power	0.75 kw
total power	5 kw
power supply	380v 50hz
weight	550kg
