

HTGF-150 High Speed Tube Filling & Sealing Machine

Aluminum Tube Filling and Sealing Machine

Thank you for your visiting, our company is specialized in producing various soft tube, plastic tube, composite tube, aluminum tube filling and sealing machine, suitable to a variety of toothpaste, cosmetics, skin care products, protective creams, ointments and other paste filling.

My company has a variety of filling and sealing machine, high-speed, automatic, semi-automatic, rotary, reciprocating, plastic tubes, Aluminum tubes, internal heating, external heating and other filling and sealing machine, for the diameter of 11 -50mm, filling range if 2-250ml.

Optional devices are water-cooled machines, automatic pumping material feeding machine, multicolor code editor, other requirements can be customized depending on your need.

Key Features:

1. Compact Design
2. Driving Parts Fully-closed
3. Pneumatic Tube Washing & Feeding
4. Intelligent Temperature Control and Cooling System
5. Easy to Operate and Adjust
6. 316L Stainless Steel Contact Parts to meet GMP Standard
7. Safety Interlock Shutdown when Door is Open
8. Overload Protection Provided
9. Automated Working process from Tube Loading to Finished Products Output
10. Automatic Orientation Effected by Photoelectric Induction

Optional Devices:

1. Chiller
2. Date Coding Embossing
3. Automatic Tube Feeding Magazine
4. Change Parts

Technical Parameters:

Filling volume:	1-300 ml/unit (Adjustable)
Filling accuracy:	less than $\pm 0.5\%$
Capacity:	2400-4800 units/hour (Adjustable)
Tube diameter:	$\Phi 10-50$ mm
Tube length:	210mm (can order)
Hopper volume:	40L
Equipped motor:	1.1KW
Machine power:	2kw
Dimension:	22700×960×2100 (mm)
Power supply:	380/220 (Optional)
