

YK Oscillating Granulator

This machine is used mainly in such trades as pharmacy, chemical industry, food, pottery and plastics extensively, making moist powder material particle. Make cylinder swing reciprocally, extruding material from screen mesh for granulation.

Technique Parameter:

Model	YK-60	YK-90	YK-160
DIA rotor(mm)	60	90	160
Capacity (kg/h)	20-30	50-100	200-300
Rang of wave	>360°	>360°	>360°
Number of times of waving rolingly	46	50	55
Motor power(kw)	0.25	0.55	02.φев
Weight (kg)	55	150	330
Overall size(mm)	460*550*570	750*460*840	970*560*1240
