4. 2 meter straight conveyor line;
5. Can be used with filling machine and labeling machine;
6. Conveyor, capping speed and capping time can be easily debugged;
7. This machine is made of stainless steel and is GMP-compliant and durable.
8. Can be made into a single-head capping or double head capping according to user needs

Parameters:

Model	CDX-1
Name	Automatic capping machine
Capping head	1
Power supply	220V 50HZ
Cap diameter	Φ25--Φ60mm
Cap height	10-30mm
Capping speed	0-30 bottles/min
Bottle diameter	Φ35-Φ130mm
bottle height	50-320mm
Machine size	2100*900*1750mm
Packing size	2200*1000*1850mm
Machine weight	200Kg
Packing weight	250Kg
