## FR-450 Vertical Continuous Sealing Machine

Equipment introduction: constant temperature control device and infinitely adjustable-speed drive mechanism, can seal all kinds of different materials of plastic film bags, can be used with all kinds of packing line and its sealing length is not restricted, continuous sealing machine has high efficiency and reliable sealing quality, reasonable structure, convenient operation, etc. Can all kinds continuous sealing machine, horizontal, vertical lie, multi-purpose on floor, horizontal with the dry goods packing seal; Vertical is suitable for the liquid packing seal of the item

### Technical parameters:

MODEL	FR-450
Voltage	AC220V/50HZ110V/60HZ
Power	80W
Heat sealing power	2x300W
Speed	1-21m/min(1-30m/min)
Sealing way	Continuous
Operating temperature	0-300 Stepless adjustable
The sealing center to the transmission distanc	210-450mm
Single layer film thickness	≤0.4mm
Conveyor table size	830x250mm
Delivery to the total load weight	≤5KG
Net weight	30KG
Size	L1040xW590xH780mm
