

Durable Accessory Equipment Powder Filling Machine XY-FG

This machine is suitable for packaging fluidity Powdery product like milk powder, albumen powder, solid drink, white sugar, dextrose, coffee powder, rice powder, fodder, pharmaceuticals, agriculture pesticide, granular additive, dyestuff etc in bag, can, bottle package. Stainless steel design, in line with GMP standard, It can do measuring and filling work.

Features for the accessory equipment powder filling machine:

1. The part which contact to material is made of SUS 304, this completely conform to standard of food and medicine.
2. Maintenance-free, no noise, famous brand gear reducer
3. High speed, low noise
4. American Stepper Motor
5. PL control, intelligent secondary blanking, packing weight is controlled by electronic scale, it is stable.
6. Synchronous mixer to avoid material leakage.
7. Easy operation software, easy to use.
8. Transparent feed bin, clear to check material operating situation.
9. Operable feed bin

Features:

- ① Clean it any time any where, dead-zone free. Finish cleaning within 2 min.
 - ② Conveniently change the mixer position, to make sub-package accuracy perfect.
 - ③ Conveniently maintain and overhaul mixer, measuring screw and long shaft.
10. High precision process make motor, long axis, feed bin, measuring screw and material cup highly concentric match with each other

Features:

- ① Increasing running efficiency
- ② Reducing abrasion of measuring screw.
- ③ Greatly reduce the measuring misaligned breakdown which is caused by factors like machine moving, cleaning, longtime operation.

11. Measuring cup and feed bin are connected by fast mounting clamp, easy to use.

12. Meter device can be auger or electronic weighing scale for options.

Technical Parameters:

Packing range	10-10kg
Packing speed	300-800 bags/hr
Packing accuracy	$\leq \pm 0.3\%$
Voltage	AC 380V (or 220V)
Power	1.5KW
Machine weight	180 kg
Machine dimension	L*W*H=710*810*1900(mm)
