

High-Speed Double Head Tube Filling and Sealing Machine

Tube filling and sealing machine is suitable for aluminum tube, plastic tube and laminated tube filling and sealing machine in cosmetic, pharmaceutical, food, adhesion and other industries.

Product Details:

1. PLC touch screen. Well-know brand touch screen, Easy control and Intuitive operation.
2. Fully automatic operation, adjustable production speed, easy operation, safety, improve work efficiency, reduce labor costs.
3. Pneumatic type piston filler, according to your filling volume, we offer personal filling solution to deal with liquid or paste.
4. Automatic put pre-cut lid, sealing tight, clean, improve work efficiency, reduce labor costs. Accept customized roll film also.
5. Cup out automatic, work stable, fast speed, reduce labor costs.

Technical Parameters:

Operation Speed	160/Min/(Max)
Filling Volume	1-300ml
Filling Precision	$\leq \pm 0.5\%$
Suitable Tube Length	50-240mm
Suitable Tube Diameter	10-50mm
Power Supply	380Volt, 50Hz (220Volt, 60Hz)
Power Of Hot-Wind Generator	3Kw \times 2
Consumption Of Compressed Air	1.2 M3
Working Pressure	0.6 Mpa
Capacity Of Hopper	70L
Dimensions	2870 \times 1770 \times 2340mm
