

Capsule Counting Machine JS-2A/2/4

We have several types of pill counting machines (pill counter, tablet counter) that can meet users' needs.

Desktop and portable electronic pill counting machine

Automatic capsule counting machine that can used alone or be connected into the packaging line.

Counting machine for softgel capsule and for the hard capsule.

The Electronic Pill Counter Machine has been designed and developed to count & fill different shapes and sizes of softgel capsule, hard capsule, pill and tablets into bottles.

The Characteristics of Electronic Pill Counter

- ◆ Suitable for hospital dosage department and small pharmaceutical factories.
- ◆ Suitable for tablets, soft gel capsules, hard capsules, and pills.
- ◆ The number of the capsule can be set up from 5-9999.
- ◆ Stainless steel material for the whole machine body can meet with GMP specifications.
- ◆ Easy to operate and no special training required.
- ◆ Precision Tablet/ capsule counting with the photoelectric sensor.
- ◆ Rotary counting design with fast and smooth operation.
- ◆ The rotary counting plate speed can be adjusted with step-less according to the bottle putting speed manually.
- ◆ Vibration feeding design, the vibration frequency of hopper can be adjusted.
- ◆ Three models to choose, JS-2A counting one bottle at a time; JS-2 counting two bottles at a time; JS-4 counting 4 bottles at a time. The more counting heads the faster counting speed there is.
- ◆ The machine is a small size, there are multiple choices for machine dispatch. Fast delivery way like DHL, FedEx, TNT, UPS, EMS; Slow transportation like sea shipping.
